National societies are asked to provide a list (template provided by ESSR) of their members who wish to join the ESSR at the reduced subscription rate. They should not be asked to provide information about all their members. Forwarding any member information to ESSR requires the personal confirmation and willingness by the respective individual, which has to be collected by the National Society.

ESSR includes all given individual National Society members in the ESSR membership database.

The National Societies are kindly requested to collect the fees of the Individual Members and pay the collective group member fee to ESSR in two payments per year after receipt of invoice (February / December)

The termination of this cooperation needs to be done in writing 6 months in advance to a new calendar year.
